Directors Statement

As a freelance writer/director/producer, it's important for me to work on projects that are socially conscious.

It takes a tremendous amount of time and energy to get films made, and in my opinion they should add something to this world; some message of positivity, hope, exploration or even specific calls to action.

Although this story started as an exploration of the relationship some older people have with younger people in an effort to recapture the energy of their youth, the creation of the 'misfit' crew opened up doors to diversity, acceptance, inclusion and family. It soon became a work of many peoples voices adding to it, with insight from Blair and Gail Williamson, to some of our creative's suggesting a deaf storyline and further by the actors embracing the roles and bringing something more then the words on the page.

This project is truly the collaboration of community and our particular 'village' did a great job of capturing the heart and soul of the story.

Reviews

What a treat to see such a heartwarming, feel-good movie!

BETTY JO TUCKER *Reel Talk Movie Reviews*

Turnover is so rich in its humor, humanity and heart that you'll find yourself immersed within its story and laughing and loving and, I'd dare say, even perhaps crying a little bit along the way.

RICHARD PROPES *The Independent Critic*

A charming and relatable cadre of characters that will win you over in this slice-of-life dramedy.

BILLY BENIGHT *LA Beat*

Everything here from start to finish is pretty darn funny. Character funny. Situation funny. Just plain funny - with that hint of fear and sprinkles of tolerance and understanding.

INDYRED

All of the actors are top-notch, and the film is beautifully written with humor and tenderness.

LAURA VOETH *Tolucan Times*
